1 May 88

Dear Shirley & George,

Thank you both sincerely
for a great weekend, specially all the
driving around, carting me to and fro.

The trip home was uneventful
and Dawn was at the Griffith Terminal
waiting for me.

Great excitement next day
as we received our special invitation to the
opening of the new Parliament House by Her
Majesty on 9 May 88.

If you are in need of a
break in the wet weather pattern just invites me
for another sunny weekend, but no weddings

Please send me Matthew's
address and phone no. I'll be making him a
special luggage tag to go on his touring
swag which I imagine will be following the
Bicentennial Bike Ride.

You also might tell Matthew that
I emptied the old enamel bath full of worm
castings onto my large 16'x8' vegie bed and after
digging it in and raking, planted 30 broad beans.
Question:- Will they grow tall enough for "Jack" to
climb?

Enclosed back to Griffith week
programme which you might like to enjoy during
a suggested visit with us.

P.S. Any news on the
polyethylene cover (P.E.G. 1000)?

Sincerely
Aunt.
